

SUMMARY

Enthusiastic Software Developer with 1+ year of experience, specializing in creating user-friendly, high performance web applications that enhance customer satisfaction, utilizing technologies such as JavaScript, React, Next.js, Tailwind, and GitHub to design and implement intuitive user interfaces for websites and web-based applications. Adept with a foundational understanding of backend technologies like MongoDB, Express, and Node.js, and I am skilled in integrating APIs to ensure seamless functionality.

SKILLS

- HTML: Proficient in structuring semantic web content to create accessible and user-friendly pages.
- CSS: Skilled in styling and designing responsive layouts to enhance visual appeal and user experience.
- JavaScript: Experienced in developing interactive features and dynamic content for engaging web applications.
- TypeScript: Proficient in writing type-safe code, defining strict interfaces, and catching runtime errors early during development for highly scalable applications.
- ReactJS: Proficient in building reusable components and efficient user interfaces with React for seamless application performance.
- Next.js: Familiar with utilizing Next.js for server-side rendering and static site generation to optimize SEO and performance.
- Tailwind: Knowledgeable in leveraging tailwind's components and grid system for quick and responsive web design.
- MongoDB: Familiar with MongoDB for storing and managing large volumes of unstructured data in web applications.
- Node.js: Experienced in developing scalable server-side applications using Node.js for high-performance networking
- Express: Knowledgeable in using Express to build robust web applications and APIs with Node.js.
- Figma: Skilled in using Figma for collaborative UI/UX design, enabling effective prototyping and feedback.
- VSCode: Proficient in using Visual Studio Code for coding and debugging, enhancing overall development efficiency.

OTHER SKILLS

- | | | | |
|--------------------------|---------------------------------|------------------------|---------------------------|
| • Responsive Web Design. | • Web Performance Optimization. | • Understanding UI/UX. | • Problem-solving skills. |
|--------------------------|---------------------------------|------------------------|---------------------------|

- APIs Integration.
- Knowledge of Restful APIs.
- Principles of Testing and Debugging.
- Attention to details.

PROFESSIONAL EXPERIENCE

Tech Studio Academy (Intern Full Stack)

Jan 2026

- Converted UI designs from Figma into responsive and interactive website using React.
- Integrated backend API endpoints using React Redux, ensuring secure and efficient communication for retrieving and storing data in the database.
- Developed responsive and interactive user interfaces using React and related technologies.

EDUCATION

National Youth Service Corps (NYSC)

Jul 2025 – June 2026

Bachelor of Arts (BA) in Linguistics and Nigerian Languages

Nov 2020 – Jan 2025

Ekiti State University, Ado, Ekiti State, Nigeria.

Senior Secondary School

Sep 2016 – Jul 2019

Bravford Assda Group of Schools, Ado, Ekiti State, Nigeria.

Junior Secondary School

Sep 2013 – Jul 2016

Bravford Assda Group of Schools, Ado, Ekiti State, Nigeria.

CERTIFICATIONS

Java Script Full Stack Web Development
